

Ever wish you could bring your work computer home with you because your home PC is so slow? Do you suspect that viruses and spyware have clogged your home PC? Here at Bellwether we feel like you deserve the essential daily level of protection that you enjoy at work, and we are now offering you the same tools and services that our business customers enjoy, tailored for a consumer environment.

@ \$250 Flat Fee Setup and/or Data Migration Charge; \$14/month¹ for continuing coverage including:

- @ 2 GB of free offsite backup; free anti-virus and anti-spyware; auditing & inventory management
- @ Managed Windows updates and preventative maintenance features to keep you safe
- @ Our activenet plus services along with paid access to our support desk²

Available Services:

- @ Home PC and network setup & configuration including:
 - @ File sharing between multiple PCs in your house
 - @ Wireless router setup & configuration allowing all devices in your home to connect to the internet (including TV, Tivo, Xbox & other home theater devices)
- @ Printer/Scanner/Copier setup & configuration
 - @ Allowing multiple PC's to print to the same printer
- @ Support for common applications including:
 - @ All Microsoft products, iTunes, photo management applications, and other widely used applications

If you feel like Bellwether@*Home* is right for you, contact us at 504.588.2000 or contact **Tave Fitzpatrick** at tave@belltec.com.

1 - No long-term contract; client may cancel service at any time; old-PC disposal service offered at nominal fee
